Evolis Datacard Zebra Thermal Printer Printhead Cleaning Pen

P/N:IPACP-03

Technical Specification

- Pen holder length: 143mm
- Cylinder diameter: 14.3mm
- Packing: 12pcs/box
- Solution content: 99.9% IPA
- IPA volume: 5.0 +/- 0.5 ml

Our printhead cleaning pens are specially designed for cleaning thermal printheads of barcode printers, label printers, receipt printers, card printers.

Thermal printheads build up with oxides after long periods of printing, resulting in poor print quality. The cleaning pen holder contains a 99.9% IPA solution, which is great for removing oxides.

One pen can be used 6-10 times.

Just use the cleaning pen back and forth a few times to clean the print head.

Applications

IPA cleaning pen is designed to clean the thermal printheads of all thermal printers, including card printers, barcode printers, label printers, receipt printers, kiosk printers.

After each use, you can scrape the nib on clean white paper to remove ink residue from the nib for reuse next time.

It is used to effectively remove debris, dirt and contamination remaining in the printhead.
